

Dear Esteemed SCI Exhibitors,

Thank you for your patience while awaiting news on booth placement toward the 2018 SCI show. The time has finally arrived and SCI will release the 2018 Rank & Point Listing and Booth Placement Schedule next week when it will be posted on the www.showsci.org web site. A follow up reminder email will be sent out to all when it is posted. In the interim a copy of the schedule has been attached to this email for your initial review.

If you have not yet submitted your booth application, as attached, then now is the time to do so. Remember SCI will not be able to place your company if a fully submitted booth application for the 2018 convention is not on file. Thank you to those who have submitted the 2018 application, we appreciate your timeliness.

SCI Booth placement is scheduled to resume on Wednesday, April 5th, 2017 and conclude June 14th, 2017. As in years past, as we resume booth placement we will notify each individual company via email approximately 2 days prior of their schedule placement date and time. If for some reason your company is unavailable at the schedule placement date/time then please contact us for an alternative date/time as soon as possible.

We recommend that at least 1 day prior to your booth placement date your company research to most up to date booth availability by reviewing the [2018 SCI Show Floor Plan](#). The ExpoCAD floor plan will be updated at least nightly, and likely more often during the day time, to present you the latest and complete booth placement information to assist your decision making. When presenting your booth choices, via email or phone call, we recommend that you provide us with a minimum of 3 booth location choices.

IMPORTANT SCI INFORMATION!

The official show dates are January 31 to February 3, 2018. The move in dates for the 2018 convention are limited **to two days only**: Monday, January 29, 2018 and Tuesday, January 30, 2018. The reason it is restricted to a two day move in is because SCI bumps up directly to another show that is moving out and we do not take over the show floor convention space until 12:01 AM, Monday, January 29th: at which point GES, the show decorator, has to then turn over the floor completely for move in at 10AM, Monday January 29th. **Please plan your move-in,**

and set up of your booth display in accordance with the target move-in plan. We do not have the flexibility to allow for modifications to the scheduled move-in for 2018. We do plan on extending move-in hours until Midnight on move-in days. Vehicle move-in will be monitored very carefully in order to facilitate the vehicle move-in of all exhibiting clients.

The SCI convention exhibit team; Mike Wirth, Exhibit Manager, and Angie Wild and Tim Oglesby, Exhibit Program Coordinators, look forward to working with each of you on successful booth placement for the 2018 convention. Do not hesitate to contact us via email; mwirth@safariclub.org, awild@safariclub.org or toglesby@safariclub.org, or telephone at 520-620-9313 with any inquiries or questions. We are here for you, and until we talk best wishes to all and be well.
